Growth and GTM operator, 10+ years. Founded and ran a **digital agency for seven years**: a team of 9+, EUR 250k–1M yearly revenue, $30k+ a month in paid media, 100+ projects for brands like Ceresit, Pattex and Vaillant. Before that, **operations director** of a 25-store retail network with 250 people. Now I take new products and service lines to market, building the marketing systems myself with AI, so a small team ships like a large one.
